Calicut,Kerala

PROFESSIONAL SUMMARY

Motivated BCA graduate passionate about Cybersecurity and Ethical Hacking, with hands-on experience through TryHackMe labs and Capture The Flag (CTF) challenges. Skilled in vulnerability assessment, OSINT research, and network security fundamentals. Dedicated to building a strong foundation in cybersecurity and contributing to secure, efficient digital systems.

TECHNICAL SKILLS

- Cybersecurity: Vulnerability Assessment, Ethical Hacking, OSINT,Risk Identification, Threat Analysis
- Programming : Python
- Tools: Burp Suite, Wireshark, Metasploit, Nmap
- Networking & Systems: Linux, Network Configuration, Troubleshooting

PROFESSIONAL EXPERIENCE

Maitexa Technologies

Django Full Stack Developer Intern **Jan 2025 (1 month)**

- Developed web modules using Python (Django), HTML, CSS, and JavaScript.
- Applied secure coding practices and input validation during backend development.
- Implemented user authentication and managed database operations with data integrity.
- Collaborated on testing and added basic security measures against common vulnerabilities.

EDUCATION

Bachelor of Computer Applications (BCA) **Sep 2022 – June 2025**
Krupanidhi Degree College, Bengaluru

PROJECTS

AI-Based Home Service Platform – Security Evaluation (Academic Project | 2025)

- Conducted security testing for a web platform built using Python and PostgreSQL.
- Identified input validation and session management flaws, implementing fixes aligned with OWASP guidelines.
- Focused on data protection, threat identification, and secure authentication during analysis.

CERTIFICATIONS & ACHIEVEMENTS

- Cybersecurity and Ethical Hacking – Kenonics
- Actively pursuing CompTIA Security+, CEH, and eJPT certifications
- Regular participant in TryHackMe Labs and Capture The Flag (CTF) challenges

SOFT SKILLS

- Analytical Thinking
- Team Collaboration
- Problem Solving
- Continuous Learning
- Reliability
- Attention to Detail
